LETTER OF SUPPORT IN THE FIGHT AGAINST DOPING IN SPORT

This way we give support to Croatian Kickboxing Federation, Kickboxing Club "Tigar" and "Cicvara team" in carrying out activities to raise awareness of the harmful effects of doping in sport.

This cooperation is much appreciated and we consider it important part of anti-doping activity. Aware of the fact that the risks of doping in the martial arts are great, we express our satisfaction that the organizer of this event shows initiative and interest in combating doping.

In terms of continuing cooperation that has started in previous years, we are willing to participate at the European Cup 'Karlovac Open 2019' by conducting education of athletes and support personnel through two-day outreach program, and thereby contribute to the fight against doping in sport.
